Technology at CTU - Consolacion

2022 - 2025

4<sup>th</sup> Year College

### PERSONAL INFORMATION

AGE: 20

CITIZENSHIP: Filipino

GENDER: Male

MARITAL STATUS: Single

### ABOUT ME

A positive and proactive IT professional with a strong passion for technology and nearly one and a half years of freelance experience in the IT industry. Demonstrates a solid understanding of computer systems and networks, with proven skills in diagnosing and resolving hardware and software issues. Committed to optimizing IT operations and enhancing efficiency in fast-paced, dynamic environments through effective problem-solving and technical support.

### EXPERIENCE

2024-2025

#### Capstone Projects

- Independently developed a full-scale IT solution as part of an academic requirement, applying key principles in system analysis, design, development, and testing. Managed all phases of the project—from planning and coding to debugging and documentation. Showcased strong technical skills, problem-solving ability, and self-discipline in delivering a functional and well-documented system.

2022

#### IT Assistant

- Assisted in data entry and system updates to ensure accurate tracking of voter counts for mayor elections. Collaborated with the IT team to support the successful execution of large-scale projects under tight deadlines. Demonstrated attention to detail, data accuracy, and teamwork in a high-pressure environment.
